Conducting Pre-Employment Background Investigations

2-Days (16 Hours) NMDPS Accredited

This course is designed for Law Enforcement, Communications, Fire, EMS, and other Government personnel or investigators.

Focus:

- ❑ A comprehensive course directed towards the importance and practical aspects of the hiring, selection, and pre-employment background process.

Components of the Course:

- ❑ Understanding the need for a hiring and background process
- ❑ Legal-liability issues of employment hiring and backgrounds
- ❑ Personal History Statements and Integrity Questionnaires
- ❑ Interview techniques and tactics
- ❑ Verification and comparison of data
- ❑ Sources of information including the internet and social sites
- ❑ Forms and checklists
- ❑ Investigative reports

Students participate in classroom discussion, exercises, and will analyze responses to interviewer questions and formulate follow-up questions in scenario based exercises.

Advanced Interview & Statement Analysis

3-Days (24 Hours) NMDPS Accredited

This course is designed for Law Enforcement officers, criminal, and administrative investigators as well as other government personnel who conduct investigations.

Focus:

- ❑ A comprehensive course directed towards effective and practical techniques in conducting successful interviews, interrogations, and statement analysis within different target groups of the population.

Components of the Course:

- ❑ Importance of interviews and interrogations
- ❑ Legal aspects of questioning
- ❑ Qualifications for successful interviews
- ❑ Effective and ineffective interviews
- ❑ Questioning techniques
- ❑ Structuring the interview
- ❑ The interrogation process
- ❑ Statement analysis
- ❑ Court testimony

Students participate in classroom discussion and various practical exercises throughout the course.

Computer Crime Scene

1-Day (8 Hours) NMDPS Accredited

This course is designed for Law Enforcement officers and investigators as well as other government personnel who conduct investigations.

Focus:

- ❑ A comprehensive course directed towards personnel who may become involved in computer and data evidence identification, collection, and retrieval especially when serving search warrants on technological equipment.

Components of the Course:

- Officer safety and liability
- Computer evidence
- Portable storage devices
- Network devices
- Operating systems
- Data evidence collection
- Off-scene evidence and preservation letters
- Search warrant preparation

Students participate in classroom discussion and case reviews.
